Inyo Council for the Arts works to provide an environment in which the arts thrive!

We believe that arts create a language that connects all people and enriches lives.

We are dedicated to advancing the arts in Inyo County by promoting appreciation, education, and collaboration.

ICA brings quality programs and new experiences to our community.

We provide a venue for local artists to show their work, for musicians to perform, and for the community to gather in appreciation of the arts.

Each year, ICA sponsors several live cultural performances in schools throughout Inyo County.

We are a non-profit organization which relies heavily on membership for our continued success.

Thank you for your support!

*A community which encourages, supports
and fosters art empowers its citizens to live,
work, and think creatively.*
